Q1 | April - June 2023

ShareIT has closed one of its most successful quarters yet! From opening the ShareIT program to municipalities, to hitting our highest spend of $11.4M since our inception, Q1 has been an exciting time for the program. We've worked hard to focus our offerings to amplify our members' vision and this achievement is a testament to the successful and dedicated collaboration between us and the unique visions of each of our members.

Over the last few months, ShareIT has had the opportunity to connect with our members and partners in a variety of ways to better understand our direction for the 2023-24 fiscal year. We're excited to announce two projects in the development phase: Servers & Storage and Vulnerability Assessment & Penetration Testing V2. We have also started preparations for the November Cyber Summit . We would like to thank our NREN partners SRNET and MRnet for their participation in this event.

New Cybera videos

Cybera recently released a new series of corporate videos, including one that profiles how we support collaboration. You can watch all the new videos on Cybera's Youtube channel.

Q1 Metrics (April 1 - June 30th, 2023)

$11.4M
spending on ShareIT contracts

$8.4M
estimated savings on ShareIT contracts

65 ShareIT members

Cumulative (April 2017 - June 2023)

$96.1M spending

$59.3M estimated savings

Updates from Shared Procurement
New ShareIT Master Agreements

Endpoint Detection & Response

We are happy to announce that the Endpoint Detection and Response project has been completed and is now available to be leveraged by all Members.

Insight

Cybera members can access Palo Alto Networks EDR through an agreement with Insight Canada. The agreement delivers autonomous, artificial intelligence (AI) and machine learning cybersecurity for the endpoints, data centers, and cloud environments of today's modern enterprises. Their solutions enable attack prevention, detection, response, and remediation across all major vectors and encompass an array of functions and services. More information.

Procurement Projects in Flight

Vulnerability Assessment & Penetration Testing

STATUS: SERVICE DEVELOPMENT
This agreement will offer a wide array of cybersecurity related services, including vulnerability assessment, penetration testing, and web application scanning. There are 14 participating members. Estimated posting is September 2023.

Servers & Storage

STATUS: SERVICE DEVELOPMENT
This agreement will offer enterprise servers and storage, connectivity hardware, and service solutions. There are 12 participating members. Estimated posting is November 2023.

Networking Hardware

STATUS: REVIEW
ShareIT will be hosting an annual retrospective for members on September 21, 2023. This is an opportunity to provide feedback on the existing networking hardware agreement. A meeting invite will be sent out to all participating members.

Highlighted Features

WBM has recently released their 2023 impact report, which focuses on their environmental, social and governance results from the past year. WBM has looked to provide women in technology with opportunities to train, practice and better prepare for careers in the industry. This report also explores how WBM has enabled remote communities to access training in digital literacy and upskilling through different initiatives.

Cybera members can access SentinelOne EDR through an agreement with ISA Cybersecurity. The agreement also includes access to a semi-annual endpoint technical review and health check at no cost, on-demand EDR training and certifications as well as guided onboarding and deployment plans. Learn more about the agreement here.

Cybera members can work with Softchoice to acquire an AWS Public Cloud and Microsoft licensing assessment - a $5000.00 value jointly funded by AWS and Softchoice. Members can access the AWS accelerator offer with up to 30% in funding to migrate your first production workload to AWS or utilize the workload analyzer for migration planning services. Softchoice is offering AWS class based training at a 10% discount for Cybera members and a 3% discount on their monthly AWS bill. Please contact Serap Ozturk , Account Executive at serap.ozturk@softchoice.com if interested.

Training & Development Opportunities

For more information on upcoming training and development visit the ShareIT Professional Development page. For all upcoming events visit Cybera's Events page.

ITIL 4 Foundation

Registration deadline: September 4, 2023
The ITIL Foundation course introduces learners to the lifecycle of managing IT services in order to deliver business expectations. The course incorporates an engaging case-study based approach to learning the core disciplines of ITIL Best Practices, thereby positioning students to successfully complete the Foundation exam. Passing the ITIL Foundation exam is a prerequisite for admission into ITIL Intermediate-level training courses.
