

SHAREIT QUARTERLY UPDATE

Q1 | April - June 2024

This Fall ShareIT will be embarking on another member outreach initiative to gather information (and feedback) for moving the program forward! We plan to meet virtually with Alberta K-12 school boards and municipalities, as well as our new Saskatchewan members. Please keep an eye out for our email looking to set-up a video call in the coming weeks.

Over the last quarter, the ShareIT team has been busy prioritizing the member user experience. Cybera received feedback from members looking for a user-friendly spot for master agreements and key information. Now, when visiting the [catalogue offerings landing page](#) on the Wiki, you'll notice a table with all the important agreement information for each of the offerings! This includes expiration dates and primary account manager contact information.

The 2024 [Cyber Summit](#) will once again be held at the Banff Park Lodge in Banff, Alberta. The Summit runs November 13-14, with workshops on November 12 (Workshop Day tickets sold separately). Early bird pricing ends September 15, so there is still time to take advantage of the cost savings. Last year the event sold out, so grab your tickets [here](#), before it's too late.

Q1 Metrics (April 1 - June 30, 2024)

\$12.2M

spending on ShareIT contracts

\$11.5M

estimated savings on ShareIT contracts

82 ShareIT members

Cumulative (April 2017 - June 2024)

\$128M spending

\$76M estimated savings

Updates from Shared Procurement

Procurement Projects in Flight

ERP Professional Services

STATUS: SERVICE DEVELOPMENT

This agreement will offer a wide array of ERP professional services to support members with platform implementations and ongoing platform maintenance. There are 13 participating members and the estimated posting period is October 2024.

This agreement will be open to all ShareIT members.

Telephony v2

STATUS: SERVICE DEVELOPMENT

This agreement will be the second iteration of the telephony agreement. The current contract with [Netagen](#) will expire January 2025. There are seven participating members and the estimated posting period is late Fall 2024.

This agreement will be open to all ShareIT members.

AWS

STATUS: SERVICE DEVELOPMENT

We are working diligently with AWS to secure an Enterprise level agreement to best serve the membership. Cybera has entered into a month-to-month extension with [Softchoice](#) to bridge the service gap. ShareIT will continue to update members as this progresses.

The current month-to-month agreement is open to all ShareIT members.

Highlighted Features

AWS K12 Cyber Grant Program

AWS Canada has launched a K-12 Cyber Grant Program, investing \$5 million in AWS promotional credits for new and existing customers. Further details, including how to apply, can be found [here](#).

Customer Relationship Management Community of Practice

The CRM Community of Practice (CoP) has already been a tremendous success, fostering collaboration and knowledge sharing among post-secondary institutions in just a short time. Our members have engaged in insightful discussions, shared best practices, and tackled common challenges related to CRM systems.

The CRM CoP is open to all post-secondary ShareIT members. If you are interested in joining this accomplished community, please reach out to the [ShareIT team](#) for more information!

Training & Development Opportunities

For more information on upcoming training and development visit the [ShareIT Professional Development page](#). For all upcoming events visit [Cybera's Events page](#).

ShareIT Presents Microserve (Terranova): Phishing & Security Awareness Training – A Refresher: New Features/Lessons Learned/Questions Answered/Solution Overview

August 20, 2024

[Recording and slide deck](#)

This refresher session covered new features, lessons learned, and provided a comprehensive solution overview. The agenda included an overview of Fortra Terranova, common member questions, new content and content roadmap, new platform features, a platform demo, and a Q&A session.

SANS Cybersecurity Training

We are thrilled to announce the successful completion of the ShareIT and SANS Cyber Security Training voucher program! Through this initiative, 11 of our member participants have completed a total of ten courses, leading to significant professional development and skill enhancement within our community. This collaborative effort has resulted in over \$70,000 in savings for the ShareIT membership, showcasing the power of collective investment in education and training.
